

50kW outdoor energy storage unit for Greek microgrid

Overview

With a highly integrated design, it is built for flexible deployment across a wide range of C&I energy storage applications. This robust system is designed to reliably power the client's office facilities and mining operations. The solution underscores HITEKESS's capability to deliver tailored, high-performance. The RENA1000 Commercial & Industrial (C&I) Energy Storage System from RENAC—delivering 50kW/104kWh of intelligent solar-plus-storage capacity. Located in Macedonia—a region known for its strong solar irradiance (over 2,700 sunshine hours annually)—the business operates critical loads that demand. Namkoo recently completed the supply of a 50kW/100kWh hybrid grid-connected solar system for a vacation villa community in Greece. Individual pricing for large scale projects and wholesale demands is available. The battery cabinet has 2*50KWH (51).
