

# Cost of 40-foot collapsible containers used in Southeast Asian ports

## Overview

40ft container from Asia to the US West Coast: \$2,000–\$3,800 in 2026. Rates are down 30–35% from 2025 peaks but stay above pre-pandemic levels. While there are over a dozen different-sized containers, 20-foot (TEU) and 40-foot (FEU) containers are the most frequently used. What fits in a TEU will determine the cost of shipping. The cost also depends on the type of goods transported and how efficiently these can be packed and loaded into. The shipping container price for 20ft units starts from 17,000,000 IDR for cargo-worthy condition. These new containers are cargo worthy, wind. A 40ft container is the most commonly used container for international trade due to its capacity, cost efficiency, and versatility. The final shipping cost depends on multiple factors, including freight mode, origin and destination ports, seasonality, and carrier rates.
