

How much does it cost to repair the battery main control box

Overview

For simple replacement of damaged car battery terminals, common repair costs include: Parts – \$5 to \$60 1. Battery terminal posts/studs (\$5-\$20 each) 2. Terminal wire connectors and clamps (\$3-\$10 each) 3. Assorted wires, heat shrink, tape (\$5) 4. Anti-corrosion spray (\$3) Labor – \$50 to \$250 1. Shop hourly rate (\$50. The car battery terminals include the metal posts that directly attach to and protrude from the battery itself to provide connection points, the battery cables that attach to the posts and. Watch for these common indicators that the battery terminals are damaged or corroded and likely need replacement: 1. Visible white, green, or blue corrosion around the terminals. 2. Having a professional mechanic replace terminals typically costs \$100 to \$300 including labor and parts. DIY battery terminal replacement can cost as low as \$20 to \$60 in just new. Several important factors influence the total cost of replacing worn or damaged battery terminals: 1. Number of battery terminals needing replacement– The more that are corroded, the higher the parts and labor. 2. Extent of corrosion and damage– Severe corrosion adds.
