

# Jordan s largest energy storage power station connected to the grid

## Overview

The Kingdom of Jordan - BESS is a 20,000kW energy storage project located in Jordan. Combine business intelligence and editorial excellence to reach engaged. Energy experts have lauded the Cabinet's recent approval of a grid-scale battery energy storage system (BESS) for the National Electric Power Company's transmission network, calling it a critical step toward enhancing Jordan's energy security and grid stability, Petra reports. By 2021, 1600 MW of PV and 715 MW of wind energy are scheduled to be grid connected, the majority of which. The following is a list of fossil-fuel power stations in Jordan. One of the country's power plants operates on locally. Winline Technology is proud to announce the successful commissioning of its first overseas "PV-Storage-Charging-DC-Flexible" smart microgrid station in Jordan. Constructed in collaboration with a local partner, with Winline providing the entire system's products and technical support, this project.
