

Sales cost of solar panels installed on roofs

Overview

Solar panel installations typically cost between \$13,962 and \$27,924 in 2026. The actual price tag depends on your home's energy needs, roof characteristics, local incentives and other factors, all of which we'll break down in this guide. Most installers price solar systems by watt. Solar Costs Have Reached Historic Lows: Average residential solar costs have dropped to \$3.30 per watt in 2025, representing a 60% decrease from 2010 levels. Combined with the 30% federal tax credit extended through 2032, most homeowners can achieve payback periods of 6-12 years with 25+ kWh. You'll need to install a 12 kW system. Using a sample address, take a look at the detailed estimate Project Sunroof can give you. However, every home has different production needs based on its size and location, and total system costs are influenced by an array of other factors. Published: June 2026 Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7.
