

Solar battery cabinet cabinet patent

Overview

A recently granted patent (Publication Number: US12002979B2) discloses an energy storage battery cabinet designed with a main body, first and second side doors, and inner side plates for efficient organization and storage of battery packs. Search specific patents by importing a CSV or list of patent publication or application numbers. The utility model relates to the technical field of energy storage, and particularly discloses a photovoltaic energy storage cabinet, which comprises at least one battery cabinet and a control cabinet. The utility model relates to a solar photovoltaic energy storage cabinet, which comprises a main control module, a base and at least one battery pack module, wherein the main control module is positioned above the battery pack module or positioned between the battery pack module and the base; the. An energy storage battery cabinet including a housing is provided. The housing includes a main body, a first side door, and a second side door. The top plate and the bottom plate are arranged opposite to each other. The present disclosure provides a battery cabinet of a battery box and an energy storage container including the battery cabinet.
