

Thimphu Solar Power System

Overview

AFRI SOLAR - Nestled in the Himalayas, Thimphu's solar power generation system has become a blueprint for mountainous urban energy solutions. With 280+ sunny days annually, Bhutan's capital leverages its 1,200 kWh/m² solar irradiance to reduce reliance on imported fossil fuels. The city aims to achieve 75% rene. The Ministry of Energy and Natural Resources, in collaboration with the International Solar Alliance (ISA), today launched the Country Partnership Strategy (CPS) 2025-29 and the National Solar Energy Roadmap (NSER) 2025-40 in Thimphu. Nestled in the Eastern. The DSP Solar project has been instituted under the Royal Command of His Majesty to advance solar PV initiatives in the country and to build local capacity in this vital area. Through. Bhutan held the groundbreaking for the 120 MW Jamjee solar project in Thimphu, with Druk Green Power and European Investment Bank financing construction.

Article Content

Press Release

Deviating from our sole focus on hydropower, the project aims to enhance domestic capability, embrace emerging technologies, reinforce climate change resilience, and secure long

Rooftop solar plant at CFM in Thimphu to generate 360,000 units of ...

The status of the project and power generation is displayed in the control room at CFM. Although the rooftop solar plant is installed at the Centenary Farmer's Market, the electricity

Distributed Solar for Public Infrastructure Project (DSPIP ...

The commissioning of the Distributed Solar for Public Infrastructure Subproject 1 installed on the public infrastructure buildings around Thimphu, and DGPC's infrastructure at Basochhu and Chhukha

Thimphu Wind and Solar Energy Storage Project: Powering Bhutan's

Discover how the Thimphu Wind and Solar Energy Storage Project is revolutionizing renewable energy integration in the Himalayas. This article explores its technical innovations, environmental impact,

Thimphu Power Supply Solar System Production

The results showed strong solar potential, with an annual generation of 19,336 kWh and a performance ratio of 84%. Scenario analysis revealed that installing PV systems on 50-90% of

DGPC embarks on 7.83 MW rooftop solar project - The Bhutanese

Under the agreement, the joint venture will undertake the design, supply, installation, testing, and commissioning of rooftop solar photovoltaic (PV) systems totaling 7.83 MegaWatts peak

Bhutan begins 120 MW Jamjee solar project in Thimphu

Druk Green Power Corporation, a Thimphu-headquartered state-owned power generation company, has begun construction of the 120 MW Jamjee PV Project. The project is

TCIL Invites Bids for 120 MW Solar Project in Bhutan's

Telecommunications Consultants India (TCIL) has issued a call for expressions of interest to select a consortium partner for the implementation of a

Rooftop PV | Solar Energy Potential | Thimphu Bhutan

My recent study assessed the potential of rooftop solar PV systems in Thimphu, designing and simulating a 12 kWp grid-tied system using PVSYST. The results

Promoting renewable energy for a clean and sustainable future

The pilot grid-tied solar project at the UN House will demonstrate solar as a reliable energy source and serve as a key driver of energy source diversification in Bhutan. The UN House in

Thimphu Solar Power Generation System Powering Bhutan s

Nestled in the Himalayas, Thimphu's solar power generation system has become a blueprint for mountainous urban energy solutions. With 280+ sunny days annually, Bhutan's capital leverages its

DSP Solar Project

About The DSP Solar project has been instituted under the Royal Command of His Majesty to advance solar PV initiatives in the country and to build local capacity in this vital area. The project is aimed to

Energy Sector in Bhutan

Solar Plants - 5.6 MW 2.60 MW at Dechencholing, Thimphu (2023-24) 251 kW at CFM Rooftop, Thimphu (2023-24) 1.60 MW Rooftop, Royal Academy, Pangbisa, Paro ('24) Solar Plant under

TCIL Seeks Bids for 120 MW Solar Project in Bhutan's Thimphu

Solar power offers a clean and abundant resource that aligns with Bhutan's environmental goals and long-term energy strategy. The project will contribute to the development of

Thimphu Power Supply Solar System Production

As renewable energy adoption accelerates globally, cities like Thimphu are embracing solar power to reduce reliance on fossil fuels. However, the intermittent nature of photovoltaic (PV) ...

DGPC embarks on 7.83 MW rooftop solar project - The Bhutanese

The systems will be installed on 267 public buildings in Thimphu, as well as on DGPC infrastructures at the Basochhu and Chhukha Hydropower Plants. The project, valued at

Launch of Country Partnership Strategy (CPS) and

The Ministry of Energy and Natural Resources, in collaboration with the International Solar Alliance (ISA), today launched the Country Partnership

National Energy Policy 2025 -

The policy targets 25,000MW of installed capacity by 2040 – 20,000 MW of hydropower and 5000 MW solar, to enable Bhutan's ambition of

Assessment of solar energy generation potential in Western Bhutan –

In this paper, efforts have been made to assess the future energy potential from the rooftop solar photovoltaic (PV) systems in Thimphu City. For this study, we designed and simulated a

Complete Solar Power Systems | Off-Grid, Hybrid, Grid-Tied

Complete Solar Power Systems Looking for a hassle-free complete solar power system? Look no further than our pre-made solar kit packages. These all-inclusive solar kits are designed for simplicity,
